AUDIT READY COMPLIANT BIOCLOUD

Commercial Companies, Government Agencies, Life Sciences/Medical Device and Health IT Industries

> **GREATLY SIMPLIFY YOUR DATA SECURITY**   > **ELIMINATE IT COMPLIANCE HEADACHES**

> **DRASTICALLY REDUCE YOUR IT COSTS**   > **EXPERIENCE UNLIMITED SCALABILITY**

1 A secure, qualified environment for customers with regulatory requirements. All data centers are monitored by security teams 24/7/365.

2 Provides validated customers with appropriate documentation to ensure that the environment has been properly qualified. Validation documents include SCS/RA/IQ/VSR/TM documents, as well as customer and internal wet-sign offs to accommodate 21 CFR Part 11 requirements.

3 Backed by a QMS which is comprised of 70+ policies, procedures, and forms. All internal documents are reviewed and trained against annually.

4 The QMS provides instructions for responding to incidents, managing system changes, and ensuring that our employees are thoroughly trained and understand their obligations for securing regulated customer data.

5 US-based datacenter continues to meet exacting standards, providing you with environments that have earned a wide array of accreditations and certificates including EHNAC-HITECH, ISO 9001, ISO 27001, SOC 2 Type II, and PCI DSS.
